EXPERIENCE

Tech Force Advisors

San Clemente, CA

Full-Stack Software Engineer

Mar 2026 – Present

- Developed RAG system that was used both internally and client-facing to analyze firm data and help pinpoint key insights within firm data
- Utilizing the React framework to develop a live content generation tool for B2B outreach, enabling the marketing department to increase productivity by 80%, which caused a 5x increase in customer acquisition through social media channels.

Perplexity AI

San Francisco, CA

Growth Lead

Jan 2026 – Jun 2026

- Led 20+ campus events teaching students and faculty AI workflows for coursework, research, and personal projects.
- Built an agentic-browser registration workflow to streamline student event sign-ups and reduce manual coordination.
- Facilitated discussions on AI ethics, labor impact, and policy pressures with students, faculty, and staff.

CareBridge Connect AI

Provo, UT

Founder, Head Engineer

Jan 2026 – Present

- Built a full-stack healthcare platform that surfaces patient well-being indicators for families and skilled nursing facilities through a clear delivery experience.
- Created an automated CRM covering 200+ Western U.S. healthcare facilities, identifying 50+ warm leads for early customer discovery and outreach.
- Raised \$8,000+ in grants to fund initial software development and outreach.

LEADERSHIP & PROFESSIONAL DEVELOPMENT

Summit Labs

Provo, UT

Director

May 2026 – Present

- Organized and led a community of AI builders from multiple universities in Utah and California.
- Hosted monthly events such as hackathons, info sessions, and live trainings to develop capable and innovative AI operators.
- Placed high aptitude individuals within over 15+ companies to build and develop AI native tools and practices.

SEO Career

New York, NY

SEO EDGE Participant

Jun 2025 – Jun 2026

- Completed SEO EDGE coaching, technical training, and industry-specific assessments to strengthen interview readiness, business fundamentals, and attention to detail.

The Church of Jesus Christ of Latter-day Saints

Santo Domingo, Dominican Republic

In-Country Humanitarian Director

Dec 2021 – Jan 2024

- Engaged with dozens of individuals in Spanish through various communication channels, including social media, cold calling, door-to-door outreach, and referrals, promoting community engagement and humanitarian work
- Collaborated with community leaders to coordinate social and educational events, positively impacting underprivileged populations and fostering a sense of connection

PROJECTS

My Story, Family Search Agent

- Developed an open-source agent harness that works in the Genealogy field. Utilizing the family search database and software to help individuals find and connect ancestors within the family search database.
- My Story actively creates a family log of your ancestors' history, describing the period, cultural, and economic practices. To create a deeper connection between users and their loved ones.
